Program Overview and Description of Assessment of Learning

This program will be comprised of two One-hour sessions: 2 knowledge-based presentations

Program Goals:

1. To update clinical pharmacists on new treatments and management approaches
2. To discuss emerging roles for pharmacists in various practice settings
3. To enhance attendees' clinical skills through knowledge- and application-based programming

Activity Objectives:

Upon completion of these activities participants should be better able to:

A Framework for Preceptors for Experiential Education

The ACPE number for this application-based activity is (1 contact hours). 0217-9999-17-123-L04-P

1. If given an experiential teaching scenario, choose from these pedagogical tools to recommend the best method to foster learning: direct instruction, modeling, coaching, or facilitating.
2. Evaluate a student assignment using a Presentation Rubric in order to make recommendations for improving the assignment.
3. If given an experiential teaching scenario, participate in a discussion to design a strategy for setting expectations and providing feedback to students.

Enhancing Experiential Education Teaching and Learning between Millennial Students and Preceptors

The ACPE number for this knowledge-based activity is (1 contact hours). 0217-9999-17-124-L04-P

1. Describe learning specific traits and characteristics pertaining to the millennial generation of pharmacy students.
2. Identify various methods for effective communications and collaborations among students and preceptors in order to enhance the overall learning partnership.
3. Incorporate the teaching and learning strategies discussed so that students and preceptors experience optimal learning outcomes in their experiential education program.

Supported by MACCP:

- This program consists of knowledge-based and application-based activities.
- The American College of Clinical Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.
- This activity will provide 2 contact hours of continuing pharmacy education credit.
- No commercial support was received for any component of this educational activity.

Statements of Credit will be issued by CPE Monitor (<http://www.nabp.net/programs/cpe-monitor/cpe-monitor-service>) upon successful completion this activity evidenced through participation in activity and submission of program evaluation. To access your statement of credit you must have the code announced during the program available and provide your NABP e-profile ID number and date of birth. If you have problems accessing your statement of credit please contact the National Association of Boards of Pharmacy, 847-391-4406. To obtain CPE credit attendees must go to www.accp.com/ce and enter the code provided to the attendee after the submission of an evaluation.
